DECLASSIFIED

WEDNESDAY
JANUARY 13, 1954

Went to the office. As a result of my cold, and now somewhat high fever, I have cancelled my trip to Strasbourg tonight to attend the meetings of the Coal and Steel Community Assembly. Am [redacted] disappointed about this.

Went over various matters with Tommy, handled arrears of work, dedicated copies of my newly published "Sixteen American Presidents", and went home to bed. Shivered with fever all night.
